

JumpWorks LLC Rate Sheet

Explanation of Payment Options

When paying the Daily Rental Fee, the rented attraction will be available for use at no charge to event attendees. Event organizers are responsible for the daily rental and set-up fees.

With the Pay-by-Jumper or Climber option, event attendees will be charged per use and event organizers are responsible only for the set-up fee.

A combination payment method is available. This payment option requires the event organizers to assume a reduced daily rental fee with a reduced use fee to event attendees. The percentage of payment assumed by the event organizer is negotiable with JumpWorks LLC.

All payment methods are pursuant to the conditions set forth in the JumpWorks LLC Event Contract.

A \$200 set-up fee is required for all events, regardless of whether the daily rental or pay-by-use option is chosen. Trained operators are included with all packages.

Rates are negotiable should your organization commit to multiple events.

If no payment package is suitable, please contact JumpWorks to discuss additional options.

- Labor Day Weekend August 30, 31, September 1
- Halloween October 31

It has been our experience that a ticket system is useful when paying the daily rental fee for large events of 1,000+ people. Substantially long lines tend to form due to the large number of repeat participants. We will be happy to discuss specifics of the ticket system should you choose to rent on a daily basis for a large event.
