

MORE RIDES and ATTRACTIONS

Let us custom build your next adventure!

JumpWorks can help you custom create a package that suits the needs of your specific event based on your demographics, venue and budget! Our signature rides can be combined with any of our fabulous inflatables, games or concessions to create an event to remember.

Whirly-Bird

The **Whirly-Bird** offers fun and is eco-friendly! No gas or electric power is required as participants move the ride by pulling on the handlebars located in front of their seats. Each rider is safely harnessed into their seat and the combined strength of the four participants is what powers the ride – the harder the collective pull of the group the faster the unit will spin. The small footprint makes it an ideal piece for tight spaces. Recommended for any person over 8 years of age.

The Cosmic Quest

JumpWorks is one of a handful of vendors to have a mobile version of this popular Ripley's attraction. The **Cosmic Quest Vortex Tunnel** features a 22' walkway that participants walk down as a revolving tunnel moves around them. It is designed to be a fun and safe test of the senses. This attraction is a one-of-a-kind piece featuring a sound system and custom created graphics. Best of all, it is good for people of all ages so the whole family can enjoy it giving you the most impact for your dollar.

The SpiderClimb

The **SpiderClimb** is a 30' tower that consists of 9 climbing layers. These weblike layers are interwoven with elastics through which participants climb their way to the top – much like a spider weaving a web. The entire piece is covered in rainbow safety netting and features a custom paint job and inflatable bongo at the entrance. This challenging climb is a real thrill and the elastic levels are woven in various patterns creating a different experience each climb. Who will be the first to reach the top of the web?

Visit the Signature Products page of our website for more information on all of our great mechanical rides.
