

# JUNGLE CLIMB

The ultimate in themed attractions!

The Jungle Climb is an innovative and unique twist on the conventional climbing wall. It is the perfect choice for those who seek perfection in themed attractions. The top-quality construction and attention to detail makes these trees look and feel just like the real thing. The leaf fronds add height and a dramatic flair making this a grand centerpiece for any event.

*Experience the fun and adventure of tree climbing with an island flare.*

The Jungle Climb is a challenging experience for children and adults. With the help of an auto-belay system, participants shimmy up the Jungle Climb just as islanders have done in the Caribbean for hundreds of years. A timer and buzzer system allows two participants to race each other up the 26' trees or one can simply enjoy the view from atop.

The Jungle Climb requires 20 minutes set-up and dismantle time. For an indoor location, it is removed from the trailer requiring a very small footprint. This makes it an ideal choice for use at conventions, conferences, indoor facilities or malls. The Jungle Climb remains attached to the trailer for use at all outdoor events such as fairs, festivals, parties and concerts.

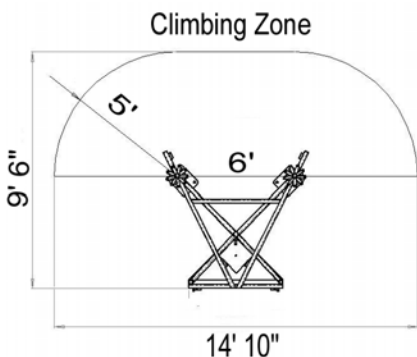

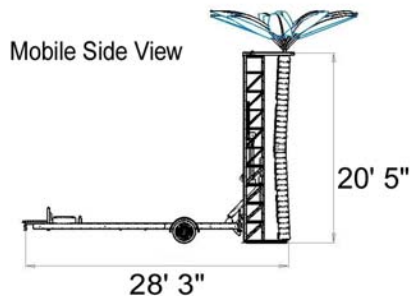

*We take fun and safety seriously!*
